---

## SUMMARY

I hope to gain valuable real-world experience and develop my skills as a junior web developer by contributing to the design, development, and maintenance of high-quality, user-friendly websites and web applications. Through collaboration with diverse teams, access to training and development programs, and exposure to multiple business units, I aim to enhance my technical abilities, stay updated on industry trends, and build meaningful professional relationships, ultimately preparing myself for a successful career in web development.

---

## WORK EXPERIENCE

### Front-End Developer | The Wonder Nook

May 2024 - August 2024

- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
- Revamped and developed a website tailored to accommodate the accessibility requirements of neurodivergent individuals, ensuring an inclusive and user-friendly experience.
- Integrated the Owl Practice Client Portal into the website to enhance user convenience and streamline customer interactions.
- Maintained graphic standards and branding throughout the product's interfaces.
- Utilized HTML, CSS, and JavaScript to create a responsive and community driven website.

### Graphic Designer | The University of Lethbridge

Sept 2023 - Current

- Designed over 120 static and video assets, utilizing different styles and approaches, nearly all of which were included in public campaign efforts
  - Developed concepts and designs for 10 clients, including consumer products, electronics and enterprise technology, utilizing Adobe Photoshop and Illustrator
  - Created compelling event graphics for university advertisements to effectively promote campus events and engage the student community.
- 

## EDUCATION

### Bachelor of Fine Arts, New Media
